

# Control-M SaaS: Using Resource Pools (WBT)

[Learning Path >](#)

Course Code: AUTO-CSRP-2023

## Modality

Web-Based Training (WBT)

## Duration

15 Minutes

## Applicable Product

Control-M SaaS

## Target Audience

- Schedulers

## Course Overview

Control-M SaaS is a workload automation solution that enables you to automate and schedule your business workflows across various platforms. It helps you to control various processes, called jobs, in an automatic and organized way.

*Note: BMC Helix Control-M is now known as Control-M SaaS.*

In this course, learn how to define and utilize Resource Pools in Control-M SaaS to optimize workload distribution and load balancing across agents, and enhance job execution efficiency to ensure high performance.

*Note: In addition to English, the textual content of this course is available in French, German, Italian, Japanese, Korean, Portuguese (Brazil), Simplified Chinese, and Spanish (Mexico).*
