

# BMC Database Automation 8.x: Administering

## COURSE ABSTRACT

### COURSE CODE

- » AUTO-DAA1-0880

### PRODUCT RELEASE

- » BMC Database Automation 8.8

### DELIVERY METHOD

- » Web-Based Training (WBT)

### COURSE DURATION

- » 4 Hours

### TARGET AUDIENCE

- » Database Administrators
- » BMC Database Automation Administrators

### PREREQUISITES

- » *BMC Database Automation 8.3: Using*
- » User knowledge of Microsoft Windows graphical user interface (GUI)

## Course Overview

The *BMC Database Automation 8.x: Administering* online course provides administrators with an overview of how to manage, configure, and administer BMC Database Automation. The course provides students with the concepts and skills needed to incorporate best practices when configuring and administering BMC Database Automation.

## Course Objectives

- » Review BMC Database Automation architecture
- » Use the Management Console
- » Manage users, groups, and roles
- » Create and modify domains
- » Manage database, node, and instance approvals
- » Assign databases, nodes, and instances to domains
- » Describe template types
- » Create and edit templates using custom fields, inline patching, and pre- and post-scripting
- » Describe Actions
- » Create and define Actions for use as pre/post provisioning activities
- » Create Patch Packages

# BMC Database Automation 8.x: Administering

## COURSE ABSTRACT

### COURSE ACTIVITIES

- » Engaging content
- » Lesson-level quizzes
- » Product demonstrations and hands-on activities

### CERTIFICATION PATH

- » This course is not part of a BMC Certification Path

### DISCOUNT OPTIONS

- » Have multiple students? Contact us to discuss hosting a private class for your organization
- » Contact us for additional information 

## Course Modules

### Module 1: BMC Database Automation Architecture Overview

- » BDA Architecture Overview

### Module 2: BMC Database Automation Security

- » RBAC Overview and Defining Capabilities
- » Managing Roles
- » Managing Groups
- » Managing Users
- » Configuring Authentication

### Module 3: Domains and Approvals

- » Managing Domains
- » Managing Approvals
- » Managing Nodes and Clusters

### Module 4: Managing Templates

- » Describing Templates
- » Managing Templates

### Module 5: Patch Packages

- » Creating Patch Packages
- » Patching Databases
- » Patch Management

### Module 6: Managing Actions

- » Defining Actions
- » Managing Actions
