

# BMC Database Automation 8.x: Using

## COURSE ABSTRACT

### COURSE CODE

- » AUTO-DBAU-0880

### PRODUCT RELEASE

- » BMC Database Automation 8.8

### DELIVERY METHOD

- » Web-Based Training (WBT)

### COURSE DURATION

- » 4 Hours

### TARGET AUDIENCE

- » Users/Operators
- » Database Administrators

### PREREQUISITES

- » User knowledge of Microsoft Windows graphical user interface (GUI)

## Course Overview

In this online course, students are introduced to the features and functionality of BMC Database Automation 8.x. Students learn how to perform various tasks as an Operator, or as an end user.

## Course Objectives

- » Describe key product concepts
- » Identify high-level product features
- » Identify database platform and operating system support
- » Describe BMC Database Automation architecture
- » Describe the Management Console
- » Use the Management Console
- » Define capabilities
- » Define roles
- » Define groups and users
- » Describe content privileges
- » Describe authentication using LDAP
- » Describe BDA functional roles
- » Identify BDA Operator tasks
- » Describe database patching process
- » Install database patch packages
- » Roll back a database patch
- » Describe Database Provisioning, Management, and Maintenance
- » Describe Node Provisioning, Management, and Maintenance
- » Describe and troubleshoot BDA Jobs

# BMC Database Automation 8.x: Using

## COURSE ABSTRACT

### COURSE ACTIVITIES

- » Engaging content
- » Lesson-level quizzes
- » Product demonstrations and hands-on activities

### CERTIFICATION PATH

- » This course is not part of a BMC Certification Path

### DISCOUNT OPTIONS

- » Have multiple students? Contact us to discuss hosting a private class for your organization
- » Contact us for additional information 

## Course Modules

### Module 1: Introduction to BMC Database Automation

- » BMC Database Automation Feature Overview
- » BDA Architecture Overview

### Module 2: Navigating BMC Database Automation

- » Navigate the Management Console
- » Describe Role-Based Access Control (RBAC)

### Module 3: Provisioning

- » Provisioning Databases

### Module 4: Applying Database Patches

- » BDA Patching Overview
- » Install Patch Packages

### Module 5: Running BDA Actions

- » Define BDA Actions
- » Run BDA Actions

### Module 6: BDA Jobs

- » Manage Jobs
- » Troubleshoot Jobs
- » Collect Diagnostics
