- » AUTO-ENT-SUBS-TSSA

DELIVERY METHOD

- » Web-based Training (WBT)
- » Self-Paced Training (SPT)
- » Videos
- » Certifications
- » Skills Assessments

VIRTUAL LAB ACCESS

This subscription contains Self-Paced Training (SPT) courses which have an optional eBook and Virtual Lab component.

With an Enterprise Education Subscription, an organization has access to a limited number of hands-on lab days annually. These lab days are shared between all employees of the organization.

If the organization has exceeded available lab days and an employee requests an Education Lab Voucher (ELV) to receive eBooks and Virtual Labs for an SPT course, the employee will receive an email communicating that the eBook and lab have not been ordered. However, the SPT course includes a recorded demonstration of the same lab exercises and can still be completed.

Additional hands-on lab days may be purchased in the event your organization has exceeded the allotted lab days for an Enterprise Education Subscription. Contact the Training Coordinator for BMC Training in your organization or education@bmc.com for assistance

Subscription Overview

TrueSight Server Automation is a leading platform for the management, control, and enforcement of configuration changes in the datacenter. Using this platform, administrators can manage both physical and virtual servers. This course is designed for TrueSight Server Automation administrators and users responsible for implementing and managing client/server business applications, managing contention servers, and ensuring compliance with company or government policies related to Configuration Management.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of the TrueSight Server Automation: Enterprise Education Subscription and details the use of this solution to identify and remediate system vulnerabilities.

IMPORTANT: Self-Paced Training (SPT) courses contained in this subscription is comprised of a course instructor video that includes a demonstration of recorded lab exercises.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

Target Audience

- » Administrators
- » Users
- » Consultants

Learner Objectives

- » Get familiar with the TrueSight Server Automation
- » Understand concepts and architecture of TrueSight Server Automation and its components
- » Learn to administer TrueSight Server Automation
- » Understand features and functionalities of TrueSight Server Automation
- » Learn to use TrueSight Server Automation effectively to increase efficiency of your business

SKILL ASSESSMENTS

Want to check your skills before registering for a course? Register for the following skill assessment tests before registering for any course. Skill assessments are meant to test your product knowledge and provide an overview of existing and missing skills to aid in selecting the appropriate training.

» [TrueSight Server Automation 20.x: Fundamentals Administering Skills Assessment](#)

» [TrueSight Server Automation 20.x: Advanced Administering Skills Assessment](#)

Note: The skill assessment is not an exam, you shouldn't prepare and not retake the assessment to avoid receiving incorrect course recommendations.

Please contact education@bmc.com, to arrange skills assessments for a group of employees and BMC to recommend specific training for this group.
