

# Control-M 22: Operating Exam

[Learning Path >](#)

Certification Code: **AUTO-OPS-922-EXA**

Modality	Duration	Applicable Versions	Target Audience
Online – AI-Proctored	2 Hours	Control-M 9.0.22.000	<ul style="list-style-type: none"> <li>Operators</li> <li>Schedulers</li> <li>Administrators</li> </ul>

## Purpose of Exam

Companies deploying and using Control-M realize its full value only when the solution is effectively implemented, operated, and administered. To ensure that deployments and operations align with best practice standards, BMC Software offers a robust technical certification program.

BMC Software maintains a technical certification program to ensure that operators excel in their tasks.

The **Control-M 22: Operating Exam** is designed to validate the technical competencies required to successfully operate and monitor jobs within the Control-M environment. This exam confirms that the candidate possesses the foundational skills necessary to manage job workflows, respond to operational issues, and maintain system efficiency using Control-M.

**Note:** In addition to English, the exam is available in French, German, Italian, Japanese, Korean, Portuguese, Simplified Chinese, and Spanish.

## Skills Tested

Participants will be tested on their knowledge of the following:

- Control-M architecture and key concepts
- Control-M Roles and their responsibilities
- Monitoring and managing job processing definitions in the Control-M environment
- Using the Properties pane to access job details in the Monitoring Domain
- Defining Public, Private, and Historical Viewpoints.
- Using Find functionality to search for jobs within a Viewpoint
- Using Neighborhood functionality to visualize job dependencies and relationships
- Viewing and modifying prerequisites to control job execution flow.
- Using the Alerts panel to monitor and manage alerts
- Describing Lock Resources, Resource Pools, and Workload Policies

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

## Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- Control-M 22: Overview (WBT)
- Control-M 21.x: Comparing Web Interface with Client Interface (WBT)
- Control-M 22: Concepts for Operators and Schedulers (WBT)
- Control-M 22: Fundamentals Operating (VILT, ASP)

## Recommended Knowledge/Skills

- Basic understanding of Linux or Windows OS (navigation, files, services, users)
- Basic concepts of servers and environments (Prod / Non-Prod)
- Awareness of time zones, dates, calendars

## Getting Started

Take the recommended courses for the exam.

**Step 1.** Register and pay for the exam.

**Step 2.** Study and prepare for the exam.

**Step 3.** Follow the instructions in your confirmation/registration email received after step 1.

**Step 4.** Take and pass the exam.

**Step 5.** Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.

## Examination Details

- Exam is an online AI-proctored exam.
- Further details and terms and conditions are available in the [BMC Certifications Program Guide](#).

## Additional Recommended Resources to Study

- [Control-M Product Documentation](#)
- [Control-M Communities](#)

## Recommended Experience

- Minimum **3 months** of experience working in a Control-M environment.

## Retake Policy

- Participants who fail the exam make another attempt after waiting one week (7 days).
- Participants get to take up to 2 attempts per purchase.
- Participants purchase the exam again after 2 failed attempts.

## Exam Registration

Choose from the following options to register for a BMC Education Services Exam:

- Register online for BMC Software certification exam at: [www.bmc.com/education](http://www.bmc.com/education)
- Contact your **BMC Education Advisor** for help with registration
