TrueSight Server Automation 22.x: Fundamentals Administering

COURSE ABSTRACT

COURSE CODE

» AUTO-TSFA-2220

APPLICABLE VERSIONS

» TrueSight Server Automation 22.2
» TrueSight Server Automation 21.3
» TrueSight Server Automation 21.02

DELIVERY METHOD 🌐

» Instructor-led Training (ILT)

COURSE DURATION 🌐

» 1 Day

PREREQUISITES

» *TrueSight Server Automation 22.x: Architecture and Components (WBT)*

Course Overview

TrueSight Server Automation is a leading platform for the management, control, and enforcement of configuration changes in the Datacenter and Hybrid cloud environment. Using this platform, administrators can manage both physical and virtual servers. This course is designed for TrueSight Server Automation Administrators and Users responsible for implementing and managing client/server business applications and managing servers.

Participants learn how to use the TrueSight Server Automation console to automate and simplify server configuration management tasks. Learners will benefit from in-depth presentations and demonstrations from expert instructors, and hands-on lab exercises in a virtual environment that will provide the opportunity for practical application of the presented concepts, methods, and procedures.

Target Audience

» Administrators
» Users

Learner Objectives

» Describe the features and basic functionality of TrueSight Server Automation
» Navigate and utilize the TSSA console folder hierarchy
» Create and execute TSSA Jobs
» Describe the usefulness of the Health and Value Dashboards

Course Modules

Module 1: Getting Started with TrueSight Server Automation
- » TSSA Features and Terminology
- » Introduction to TSSA Architecture
- » Overview of TSSA Objects
- » Introduction to the TSSA Console
- » Overview of TSSA Objects
- » Accessing Online Documentation and *How-To* Guides

Module 2: Working with TSSA Jobs
- » TSSA Job types
- » Job execution
- » Job Results Review

Module 3: Working with Properties
- » The Property Dictionary
- » Using Server Properties
- » Smart Groups
- » Creating a Server Property
- » Updating a Property
- » Custom Property Classes and Instances

Module 4: Health Dashboards
- » Introduction to TSSA Health and Value Dashboards
