PURPOSE OF EXAM

BMC Atrium Orchestrator is an IT process automation solution that allows IT to create workflows across applications, platforms, and tools to orchestrate critical activities such as event remediation, compliance, security and service desk automation across the organization. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Professional: Atrium Orchestrator 7.x Online Proctored Exam** Certification Exam will validate the technical competencies needed to successfully deploy, operate and administer out-of-the-box (OOTB) baseline functionality for BMC Atrium Orchestrator.

Skills Tested

Participants will be tested on their knowledge of the following:

- » Web Services
 - Orca, Legacy, Rest
- » XSLT Transform Editor
- » Adapters
- » Microsoft Active Directory Integrations
- » DNS Integration
