

# Helix Cloud Security 21.x: Fundamentals Using (WBT)

## COURSE ABSTRACT

### COURSE CODE

» CLDS-HCFU-2130

### APPLICABLE VERSIONS

» Helix Cloud Security 21.3

### DELIVERY METHOD

» Web-Based Training (WBT)

### COURSE DURATION

» 2 hours

### PREREQUISITES

» None

### RECOMMENDED TRAININGS

» None

## Course Overview

Security vulnerabilities are more numerous than ever and pose a threat in hybrid cloud, public cloud, and on-premises IT environments.

BMC Helix Cloud Security is a cloud-based digital platform that tracks regulatory and security compliance by collecting, organizing, and analysing high volumes of volatile IT business data, in real time, to meet the demands of web-scale IT. Complete and accurate analysis empowers IT operations to make fast, data-driven decisions that support continuous digital service improvement and innovation.

This course guides learners through the use of Helix Cloud Security by exploring features and functionality, working with patch policies, vulnerabilities, compliance violations, and operation templates.

## Target Audience

- » Administrators
- » Consultants

## Learner Objectives

- » Explain the features and functionalities of BMC Helix Cloud Security
- » Work with connectors
- » Work with policies
- » Work with violations
- » Manage users, resources, notifications, and remediation history

# Helix Cloud Security 21.x: Fundamentals Using (WBT)

## COURSE ABSTRACT

### COURSE ACTIVITIES

- » Demonstrations
- » Scenarios

### HELIX CLOUD SECURITY LEARNING PATH

- » Coming Soon.

### ACCREDITATION AND CERTIFICATION PATHS

- » This course is not part of a BMC Certification Path

### DISCOUNT OPTIONS

- » Have multiple students? Contact us to discuss hosting a private class for your organization
- » **Contact us for additional information** 

## Course Modules

### Module 1: Introduction to BMC Helix Cloud Security

- » Identify the need for cloud security
- » Describe the features, benefits, and uses of Helix Cloud security
- » Describe the architecture and components of Helix Cloud Security
- » Navigate through the Helix Cloud Security Dashboard

### Module 2: Working with Connectors

- » Define Connectors
- » Onboard On-Premise and Cloud-based connectors
- » Manage Connectors

### Module 3: Working with Policies and Violations

- » Use out of the box policies
- » Manage policies

- » Identify and remediate violations
- » Onboard and configure a TrueSight Orchestration Connector
- » Create an incident for violations

### Module 4: Administering

- » Manage Resources and Resource Pool
- » Manage Notifications
- » View Remediation History
