Course Overview

BMC Compuware Strobe/iStrobe is a performance management and analysis solution for mainframe applications that helps performance analysts pinpoint application inefficiencies causing excessive CPU consumption and prolonged execution time.

This course presents content using web-based and video modalities. This curriculum contains short demonstrations of the various topics related to Strobe/iStrobe.

Target Audience

» Performance Analyst

Learner Objectives

» Understand how to use iStrobe to set up measurements
» Discover the general concepts about iStrobe
» Demonstrate how to use iStrobe to set up measurements
» Learn about the different considerations when measuring batch jobs
» Perform steps to set up measurements in iStrobe
» Discover the additional options and parameters to use in special circumstances
» Learn in detail how to use the iStrobe's myStrobe view
» Explore how iStrobe's myStrobe view is used to review measurement request status

Course Lessons

Module 1: iStrobe: Measurement Requests - Basic
» Understand how to use iStrobe to set up measurements
» Discover the general concepts about iStrobe

Module 2: iStrobe: Measurement Requests for Measuring Batch Jobs
» Demonstrate how to use iStrobe to set up measurements

» Learn about the different considerations when measuring batch jobs

Module 3: iStrobe: Measurement Requests for Request Options
» Perform steps to set up measurements in iStrobe
» Discover the additional options and parameters to use in special circumstances

Module 4: iStrobe: myStrobe
» Learn in detail how to use the iStrobe's myStrobe view

Module 5: iStrobe: myStrobe for Measurement Request Status
» Explore how iStrobe's myStrobe view is used to review measurement request status
