- › Administrators

### EXAM DURATION

- › 2 Hours

### EXAM REGISTRATION

## PURPOSE OF EXAM

BMC AMI DevX Code Pipeline (ISPW) is a modern mainframe Software Change Management tool. With BMC AMI DevX Code Pipeline, you'll have the confidence of knowing that you can quickly and safely change, build, test, and deploy mainframe code.

As an AMI DevX Code Pipeline Administrator, you will use AMI DevX Code Pipeline to maintain the REXX Execs, JCL, panels, messages, and skeletons. To ensure deployments, administrators and operators are performed to best practice standard, BMC Software maintains a technical certification program.

The **BMC AMI DevX Code Pipeline (ISPW) 22.x for Administrators Online Exam** will validate the technical competencies needed to successfully understand product configuration, perform effective administration of ISPW using maintenance functions, and understanding how to troubleshoot problems.

## Skills Tested

Participants will be tested on their knowledge of the following:

- » Configuration of BMC Compuware ISPW
- » ISPW Change Life cycle
- » Maintenance Tables
- » Generate processing
- » Exit Processing
- » Component Reference
- » Set Processing
- » Deployment Processing
- » APIs
- » ISPW Security

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
