

BMC Certified Associate: AMI DevX Code Pipeline (ISPW) 22.x ISPF for Developers Online Exam

[Learning Path >](#)

Certification Code: CPIW-CERT-ISPD221-CA

Modality

Online – Non-Proctored

Duration

2 Hours

Applicable Versions

BMC AMI DevX Code
Pipeline 22.01

Target Audience

- Developers

Purpose of Exam

BMC AMI DevX Code Pipeline (ISPW) is a modern mainframe Software Change Management tool. With BMC AMI DevX Code Pipeline, you'll have the confidence of knowing that you can quickly and safely change, build, test, and deploy mainframe code.

As a Code Pipeline Developer, you will use the Code Pipeline ISPF interface and the change life cycle extensively. You will work with the functionalities available on the Main Menu and make use of the Task List operations. Other than that, you will also use Versioning and Deploy functionalities.

The **BMC Certified Associate: AMI DevX Code Pipeline (ISPW) 22.x ISPF for Developers Online Exam** will validate the technical competencies needed to successfully understand the product functionalities, and perform effective developer functions of Code Pipeline.

Skills Tested

Participants will be tested on their knowledge of the following:

- Define Containers
- Add an Assignment and a New Release
- Define the Repository List and Work List
- Understand Containers and Tasks
- Add an Assignment and Task to the Assignment
- Understand the Task List operations
- Define Approvals
- Explain Versioning
- Understand Deploy
- Define Generate Impact
- Demonstrate how to process Impacts

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Prerequisites

- NA
