

# BMC Certified Associate: AMI DevX Code Pipeline (ISPW) 22.x Workbench for Eclipse for Developers Online Exam

## Certification Brief

### CERTIFICATION NAME

- › BMC Certified Associate: AMI DevX Code Pipeline (ISPW) 22.x Workbench for Eclipse for Developers Online Exam

### CERTIFICATION Exam CODE

- › CPIW-CERT-WOED221-CA

### APPLICABLE VERSIONS

- › BMC AMI DevX Code Pipeline 22.01

### PREREQUISITES

- › NA

### TARGET AUDIENCE

- › Developers

### EXAM DURATION

- › 2 Hours

### EXAM REGISTRATION

## PURPOSE OF EXAM

BMC AMI DevX Code Pipeline (ISPW) is a modern mainframe Software Change Management tool. With BMC AMI DevX Code Pipeline, you'll have the confidence to know that you can quickly and safely change, build, test, and deploy mainframe code.

As a Code Pipeline Developer, you will use the Code Pipeline Workbench to quickly adapt mainframe applications and use different perspectives and views present in Workbench for Eclipse to improve the quality, speed, and efficiency of mainframe software development. You will work on analyzing errors, resolving basic errors, and escalating critical errors to Administrators.

The **BMC Certified Associate: AMI DevX Code Pipeline (ISPW) 22. x Workbench for Eclipse for Developers Online Exam** will validate the technical competencies needed to successfully understand the product functionalities and perform effective developer functions of Code Pipeline.

## Skills Tested

Participants will be tested on their knowledge of the following:

- » Access and navigate Code Pipeline from Workbench for Eclipse
- » Understand the Code Pipeline System structure and its benefits
- » Explain Life Cycle view
- » Manage Assignment Containers and Add Tasks
- » Edit and change the default Editor
- » Understand the Program Analysis feature
- » Describe the uses of the Generate operation
- » Perform Generate in Workbench for Eclipse
- » Define Generate Listing
- » Understand Impact Analysis and its need
- » Export and filter the Impacts view
- » Export Visualization view
- » Understand Component Versions, Active and Inactive Versions
- » Explain task history view
- » Understand Promote, Regress, and Fallback operations
- » Understand approvals, close functionality, and deploy
- » Explain different types of errors and their resolutions

## Certification Brief

Choose from the following options to register for a BMC Education Services Exam:

- › Register online for BMC Software certification exam at: [www.bmc.com/education](http://www.bmc.com/education)
- › Contact your [BMC Education Advisor](#) for help with registration

### RETAKE POLICY

- › Participants who fail the Certification exam may register and pay for an exam then make another attempt after waiting one week
- › Participants are limited to 4 attempts per year

## Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and also improve their knowledge and skill level to help build proficiency with the solution:

- » BMC AMI DevX Code Pipeline (ISPW) 22.x: Fundamentals Developing in Workbench for Eclipse (WBT)

## Getting Started

**Step 1.** Take the recommended courses for the Certified [Associate/Professional/Expert] learning path. Purchase the required exam (attempts).

**Step 2.** Study and prepare for the exam. BMC recommends 6 weeks and a minimum of [3] months of experience with the product before taking the exam.

**Step 3.** Take and pass the exam.

**Step 4.** If you have failed the exam, purchase another exam attempt and start at step 2.

## Examination Details

- » Exam is an online [proctored] exam.
- » Further details and terms and conditions are available in the [BMC Certifications Program Guide](#) and [BMC Education Certification Policy](#).

## Additional Recommended Resources to Study

- » BMC AMI DevX Code Pipeline (ISPW) 22.01 Product Documentation
- » BMC AMI DevX Code Pipeline (ISPW) 22.01 Communities

## Recommended Experience

- » Minimum 3 months experience developing BMC AMI DevX Code Pipeline (ISPW).
