

# BMC AMI DevX Code Pipeline 22: Concepts Exam

[Learning Path >](#)

Certification Code: CPIW-DVCT-221-EXA

Modality	Duration	Applicable Versions	Target
Online – AI-Proctored	2 Hours	22.1	<ul style="list-style-type: none"> <li>Administrator</li> <li>Developers</li> </ul>

## Purpose of Exam

BMC AMI DevX Code Pipeline is a modern mainframe Software Change Management tool. Knowledge of BMC AMI DevX Code Pipeline will help you to quickly and safely change, build, test, and deploy mainframe code.

As an AMI DevX Code Pipeline Administrator, you will use AMI DevX Code Pipeline to maintain the REXX Execs, JCL, panels, messages, and skeletons. Knowledge of Code Pipeline concepts and the interfaces that support the use of Code Pipeline will help you improve your performance as an Administrator.

As an AMI DevX Code Pipeline Developer, you will use AMI DevX Code Pipeline from different interfaces to build, test, and deploy mainframe code, and improve the quality, speed, and efficiency of mainframe software development. Knowledge of Code Pipeline concepts and the interfaces that support its use will help you understand and improve your performance as a Developer.

BMC Software maintains a technical certification program to ensure that administrators and developers excel in their tasks.

The **BMC AMI DevX Code Pipeline 22: Concepts Exam** will validate the technical competencies needed to successfully understand product concepts and the basic functionalities that support Code Pipeline in the ISPF, Workbench for Eclipse, and Workbench for VS Code interfaces.

**Note:** In addition to English, the exam is available in French, German, Italian, Japanese, Korean, Portuguese, Simplified Chinese, and Spanish.

## Skills Tested

Participants will be tested on their knowledge of the following:

- Code Pipeline concepts
- Code Pipeline SCM and structure
- Lifecycle, Tasks, and Containers
- Repository and Assignments
- Functionalities in the ISPF interface
- Functionalities in the Workbench for Eclipse interface
- Functionalities in the Workbench for VS Code interface

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

## Prerequisites

- NA

## Recommended BMC Software Courses to Prepare for the Certification

The following course, offered by BMC Education Services prepares the participants to take the BMC AMI DevX Code Pipeline 22: Concepts Exam and improve their knowledge and skill level to help build proficiency with the solution:

- BMC AMI DevX Code Pipeline 22: Concepts (WBT)

## Recommended Knowledge/Skills

Good knowledge of mainframe concepts.

## Getting Started

Take the recommended courses for the exam.

**Step 1.** Register and pay for the exam.

**Step 2.** Study and prepare for the exam.

**Step 3.** Follow the instructions in your confirmation/registration email received after step 1.

**Step 4.** Take and pass the exam.

**Step 5:** Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.

## Examination Details

- Exam is an online AI-proctored exam.
- Further details and terms and conditions are available in the [BMC Certifications Program Guide](#).

## Additional Recommended Resources to Study

- BMC AMI DevX Code Pipeline 22.01 Product Documentation
- BMC AMI DevX Code Pipeline 22.01 Communities

## Recommended Experience

- 0-1 year of job experience in BMC AMI DevX Code Pipeline.

## Retake Policy

- Participants who fail the exam make another attempt after waiting one week (7 days).
- Participants get to take up to 2 attempts per purchase.
- Participants purchase the exam again after 2 failed attempts.

## Exam Registration

Choose from the following options to register for a BMC Education Services Exam:

- Register online for BMC Software certification exam at: [www.bmc.com/education](http://www.bmc.com/education)
- Contact your **BMC Education Advisor** for help with registration
