## Course Overview

BMC Compuware Topaz Workbench provides an intuitive interface that enables developers of all skill levels to be quickly productive. The integrated UI provides access to all the tools in the Topaz suite and Compuware's other industry-leading developer tools—Abend-AID, File-AID, ISPW, Strobe, and Xpediter—as well as non-Compuware products and distributed solutions.

This course presents content using web-based and video modalities. This course will enable the students to use the Egit plugin within the Topaz Workbench.

## Target Audience

- » Developer
- » Application Programmer

## Learner Objectives

- » Install and configure the Egit Eclipse plugin into Topaz Workbench
- » Use the Egit plug within Topaz Workbench to store and recall projects and project content within both local and remote Git repositories.
