# BMC Certified Associate: BMC AMI DevX Total Test 20.x for Developers Online Exam

## Purpose of Exam

BMC AMI DevX Total Test (formerly BMC Compuware Topaz for Total Test) is an automated testing solution that enables developers and testers to test mainframe programs and subprograms almost immediately after updating a code. The tool enables automated virtualized and non-virtualized testing by allowing virtualization of the environments and external data sources.

The **BMC Certified Associate: BMC AMI DevX Total Test 20.x for Developers Online Exam** will validate the technical competencies needed to successfully perform automated testing using BMC AMI DevX Total Test.

## Skills Tested

Participants will be tested on their knowledge of the following:

- Create a Total Test project
- Record tests from the Total Test and Xpediter perspective
- Run a test scenario
- Perform automated virtualized testing
  - Create a baseline test
  - Extend the baseline test
  - Test a new version of the program
  - Rebaseline the test
- Describe the communication architecture of a non-virtualized test
- Perform automated non-virtualized testing
  - Create a simple, functional test
  - Extend the test scenario
  - Prepare the test data using palette elements
  - Validate the test using palette elements
