VIRTUAL LAB ACCESS

This subscription contains Self-Paced Training (SPT) courses which have an optional eBook and Virtual Lab component.

With an Enterprise Education Subscription, an organization has access to a limited number of hands-on lab days annually. These lab days are shared between all employees of the organization.

If the organization has exceeded available lab days and an employee requests an Education Lab Voucher (ELV) to receive eBooks and Virtual Labs for an SPT course, the employee will receive an email communicating that the eBook and lab have not been ordered. However, the SPT course includes a recorded demonstration of the same lab exercises and can still be completed.

Additional hands-on lab days may be purchased in the event your organization has exceeded the allotted lab days for an Enterprise Education Subscription. Contact the Training Coordinator for BMC Training in your organization or education@bmc.com for assistance

Subscription Overview

BMC Helix Control-M is an innovative offering based on the market leading BMC Control-M Application Workflow Automation solution for multi-cloud workload orchestration.

The content of this online education subscription will walk you through the essentials of Cloud and SaaS solutions and their benefits, introduce you to BMC Helix Control-M, focusing on key tasks and activities to successfully operate and configure BMC Helix Control-M, for example; planning and monitoring workflows. The content also includes interactive sessions and hands-on simulations to experience the user interface.

IMPORTANT: Self-Paced Training (SPT) courses contained in this subscription are comprised of a course instructor video that includes a demonstration of recorded lab exercises.
