

# Control-M: Education Enterprise Product Subscription

## COURSE ABSTRACT

### CURRICULUM CODE

- » CTLM-ENT-SUBS

### DELIVERY METHOD

- » Web-based Training (WBT)
- » Self-Paced Training (SPT)
- » Videos
- » Certifications
- » Skills Assessments

### VIRTUAL LAB ACCESS

This subscription contains Self-Paced Training (SPT) courses which have an optional eBook and Virtual Lab component.

With an Enterprise Education Subscription, an organization has access to a limited number of hands-on lab days annually. These lab days are shared between all employees of the organization.

If the organization has exceeded available lab days and an employee requests an Education Lab Voucher (ELV) to receive eBooks and Virtual Labs for an SPT course, the employee will receive an email communicating that the eBook and lab have not been ordered. However, the SPT course includes a recorded demonstration of the same lab exercises and can still be completed.

Additional hands-on lab days may be purchased in the event your organization has exceeded the allotted lab days for an Enterprise Education Subscription. Contact the Training Coordinator for BMC Training in your organization or [education@bmc.com](mailto:education@bmc.com) for assistance

## Subscription Overview

Control-M is a digital business automation solution that provides unmatched application workflow automation, lowering operating costs and increasing application deployment speed. It delivers enhanced business value with high availability, enhanced analytics, and faster application deployment through automated job promotion from development to test to production for optimal bi-modal IT innovation.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of Control-M and details the use of this solution to identify and remediate system vulnerabilities.

**IMPORTANT:** Self-Paced Training (SPT) courses contained in this subscription are comprised of a course instructor video that includes a demonstration of recorded lab exercises.

**Note:** This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

## Target Audience

- » Developers
- » Operators
- » Schedulers
- » Administrators
- » Consultants

## Learner Objectives

### UNLIMITED OFFERINGS

- » Get familiar with Control-M
- » Explain Control-M 20.x: Workflow Insights

### SKILL ASSESSMENTS

Want to check your skills before registering for a course? Register for the following skill assessment tests before registering for any course. Skill assessments are meant to test your product knowledge and provide an overview of existing and missing skills to aid in selecting the appropriate training.

- » [Control-M 20.x: Scheduling Skills Assessment](#)
- » [Control-M 20.x: Administering Skills Assessment](#)

**Note:** The skill assessment is not an exam, you shouldn't prepare and not retake the assessment to avoid receiving incorrect course recommendations.

Please contact [education@bmc.com](mailto:education@bmc.com), to arrange skills assessments for a group of employees and BMC to recommend specific training for this group.
