## Subscription Overview

Control-M is a digital business automation solution that provides unmatched application workflow automation, lowering operating costs and increasing application deployment speed. It delivers enhanced business value with high availability, enhanced analytics, and faster application deployment through automated job promotion from development to test to production for optimal bi-modal IT innovation.

Using examples, demonstrations, scenarios, and laboratory exercises the content of the online education subscription help you develop skills in Control-M installation, administration, and configuration and details the use of Control-M solution.

**Note:** This is an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

**At BMC's discretion or based on customer demand,** BMC reserves the right to change expert 1:1 coaching appointments to group coaching calls.
