## Subscription Overview

Control-M is a digital business automation solution that provides unmatched application workflow automation, lowering operating costs and increasing application deployment speed. It delivers enhanced business value with high availability, enhanced analytics, and faster application deployment through automated job promotion from development to test to production for optimal bi-modal IT innovation.

This subscription provides a deep dive into two Control-M offerings: Control-M and BMC Helix Control-M. The training in this subscription covers the components and features of Control-M Web, Control-M GUI, and BMC Helix Control-M.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of Control-M as well as detailing the use and administration of the solution.

**Note:** This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.
