CONTROL-M

BMC Certified Associate: Control-M for Mainframe Output Management 22 for Administrators Online Exam

bmc

Certification Code: CZZO-CERT-OMAD-FA922-CA

Modality	Duration	Applicable Versions	Target Audience
Online – Non-Proctored	2 Hours	Control-M 9.0.22.000	• Control-D/IOA Users • Administrators

Purpose of Exam

Control-D Output Management is an application that automatically schedules and controls Report processing and distribution. It eases tasks such as Report Decollating, Bundling, Printing, Online Viewing, Archiving, Backup, Restoring, and Migration. It helps users to print Reports to a file or to Control-D/Delivery Server.

The **BMC Certified Associate: Control-M for Mainframe Output Management 22 for Administrators Online Exam** is designed to validate the expertise in Mainframe Control-D Output Management to manage reports, execute key missions (Decollation, Backup, Restore, Migration, Printing), use online viewing and editing tools, leverage Control-D/WebAccess Server for report distribution, handle job archiving, and implement robust security.

Note: In addition to English, the exam is available in French, German, Italian, Japanese, Korean, Portuguese, Simplified Chinese, and Spanish.

Skills Tested

Participants will be tested on their knowledge of the following:

- Key components and facilities of the Mainframe Control-D Output Management System
- Report processing in Control-D
- Understand and execute:
    - Decollation Mission
    - Backup Mission
    - Restore Mission
    - Migration Mission
    - Printing Mission
- Use the Online Viewing facility to view Reports
- View and edit Reports using Rulers
- Explain Control-D/WebAccess Server application to view, send, and print Reports
- Describe DataStage and MF jobs archiving
- Implementing Control D security

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
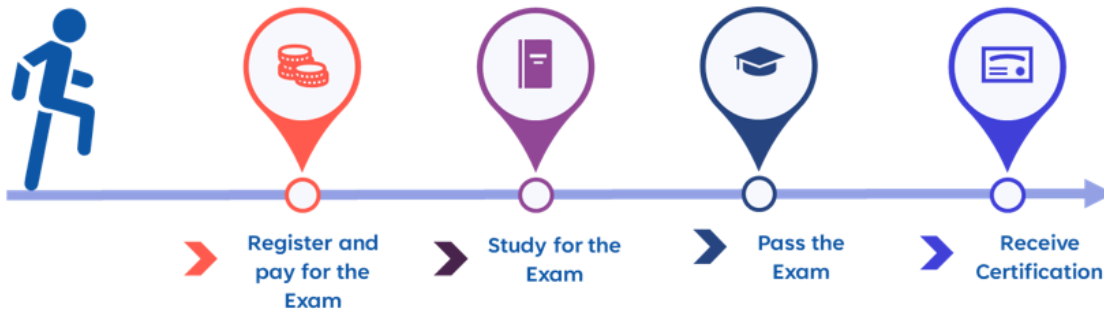

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- Control-M for Mainframe 20.x: Overview (WBT)
- Control-M for Mainframe 22: Fundamentals Output Management Administering (ILT)

For more information about BMC Education Services, visit **www.bmc.com/education**.

Getting Started

Step 1. Take the recommended courses for the Certified Associate learning path. Purchase the required exam (attempts).

Step 2. Study and prepare for the exam. BMC recommends a minimum of 3-6 months of experience with the product before taking the exam.

Step 3. Take and pass the exam.

Step 4. If you have failed the exam, purchase another exam attempt, and start at step 2.

Register and pay for the Exam → Study for the Exam → Pass the Exam → Receive Certification
