## Modality

Online – Non-Proctored

## Duration

2 Hours

## Applicable Versions

 Control-M for  
Mainframe 9.0.21.200

## Target Audience

- Control-M Schedulers
- Batch Operators

## Purpose of Exam

Companies deploying and using Control-M for Mainframe realize full value only when their solution is effectively implemented, operated, and administrated. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The BMC Certified Associate: Control-M for Mainframe 21.x for Schedulers Online Exam will validate the technical competencies needed to successfully schedule and manage jobs in the Control-M for Mainframe environment.

## Skills Tested

Participants will be tested on their knowledge of the following:

- Control-M Concepts and Terminology
- Control-M Functionality
- Scheduling Definition Facility
- Creating Job Scheduling Definitions
- Calendars
- SMART Tables
- Online Tracking and Control Facility
- Commands and Options in Active environment screen
- Prerequisite Conditions
- Control resources and Quantitative resources
- Using Condition and Resource Handling Facility
- Workload Policies
- Workload Optimization
- Control-M Event Manager
- Control-M Restart

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).
