### CURRICULUM CODE

- » CZZO-ENT-SUBS

### DELIVERY METHOD

- » Web-based Training (WBT)
- » Self-Paced Training (SPT)
- » Videos
- » Certifications
- » Skills Assessments

### VIRTUAL LAB ACCESS

This subscription contains Self-Paced Training (SPT) courses which have an optional eBook and Virtual Lab component.

With an Enterprise Education Subscription, an organization has access to a limited number of hands-on lab days annually. These lab days are shared between all employees of the organization.

If the organization has exceeded available lab days and an employee requests an Education Lab Voucher (ELV) to receive eBooks and Virtual Labs for an SPT course, the employee will receive an email communicating that the eBook and lab have not been ordered. However, the SPT course includes a recorded demonstration of the same lab exercises and can still be completed.

Additional hands-on lab days may be purchased in the event your organization has exceeded the allotted lab days for an Enterprise Education Subscription. Contact the Training Coordinator for BMC Training in your organization or [education@bmc.com](mailto:education@bmc.com) for assistance

## Subscription Overview

Control-M for Mainframe streamlines the coordination of mainframe application workflows and eliminates the need for manual intervention in overseeing related quality assurance and recovery tasks, providing enhanced efficiency to ensure the readiness of your mainframe for the future.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of Control-M for Products and details the use of this solution to identify and remediate system vulnerabilities.

**IMPORTANT:** Self-Paced Training (SPT) courses contained in this subscription are comprised of a course instructor video that includes a demonstration of recorded lab exercises.

**Note:** This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

## Target Audience

- » Developers
- » Operators
- » Schedulers
- » Administrators
- » Consultants

## Learner Objectives

- » Get familiar with Control-M for Mainframe
