VIRTUAL LAB ACCESS
This subscription contains Self-Paced Training (SPT) courses which have an optional eBook and Virtual Lab component.

Subscription Overview
Control-M for Mainframe streamlines the coordination of mainframe application workflows and eliminates the need for manual intervention in overseeing related quality assurance and recovery tasks, providing enhanced efficiency to ensure the readiness of your mainframe for the future.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of Control-M for Products and details the use of this solution to identify and remediate system vulnerabilities.

IMPORTANT: Self-Paced Training (SPT) courses contained in this subscription are comprised of a course instructor video that includes a demonstration of recorded lab exercises.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.
