

Control-M for Mainframe 22: Output Management Administering Exam

[Learning Path >](#)

Certification Code: CZZO-OMAD-9220-EXA

Modality

Online – AI-Proctored

Duration

2 Hours

Applicable Versions

Control-M for Mainframe
9.0.22.000

Target Audience

- Control-D/IOA Users
- Administrators

Purpose of Exam

Control-D Output Management is an application that automatically schedules and controls Report processing and distribution. It eases tasks such as Report Decollating, Bundling, Printing, Online Viewing, Archiving, Backup, Restoring, and Migration. It helps users to print Reports to a file or to Control-D/Delivery Server.

The **Control-M for Mainframe 22: Output Management Administering Exam** is designed to validate the expertise in Mainframe Control-D Output Management to manage reports, execute key missions (Decollation, Backup, Restore, Migration, Printing), use online viewing and editing tools, leverage Control-D/WebAccess Server for report distribution, handle job archiving, and implement robust security.

Note: In addition to English, the exam is available in French, German, Italian, Japanese, Korean, Portuguese, Simplified Chinese, and Spanish.

Skills Tested

Participants will be tested on their knowledge of the following:

- Key components and facilities of the Mainframe Control-D Output Management System
- Report processing in Control-D
- Understand and execute:
 - Decollation Mission
 - Backup Mission
 - Restore Mission
 - Migration Mission
 - Printing Mission
- Use the Online Viewing facility to view Reports
- View and edit Reports using Rulers
- Explain Control-D/WebAccess Server application to view, send, and print Reports
- Describe DataStage and MF jobs archiving
- Implementing Control D security

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- Control-M for Mainframe 22: Overview (WBT)
- Control-M for Mainframe 22: Fundamentals Output Management Administering (ILT)

Recommended Knowledge/Skills

- Core Mainframe Skills (Basic z/OS awareness, log on to the Mainframe using TSO/ISPF, navigate ISPF panels, understand PF keys and basic commands)
- JCL & Job Execution (Ability to read and understand basic JCL JOB / EXEC / DD statements, Job return codes (RC), MAXCC)
- JES & Spool Handling (Access job output in JES spool, identify job status, read basic job output messages)

Getting Started

Take the recommended courses for the exam.

Step 1. Register and pay for the exam.

Step 2. Study and prepare for the exam.

Step 3. Follow the instructions in your confirmation/registration email received after step 1.

Step 4. Take and pass the exam.

Step 5. Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.
