

Control-M for Mainframe 22: Output Management Operating Exam

Learning Path >

Certification Code: CZZO-OMUS-9220-EXA

Modality	Duration	Applicable Versions	Target Audience
Online – AI-Proctored	2 Hours	Control-M 9.0.22.000	- Control-D/IOA Users - Operations Personnel

Purpose of Exam

Control-D Output Management is an application that automatically schedules and controls Report processing and distribution. It eases tasks such as Report Decollating, Bundling, Printing, Online Viewing, Archiving, Backup, Restoring, and Migration. It helps users to print Reports to a file or to Control-D/Delivery Server.

The **Control-M for Mainframe 22: Output Management Operating Exam** validates your ability to efficiently use the Control-D Output Management Online Viewing facility and Control-D/WebAccess Server web interface. It covers viewing, editing, printing, and adding notes to reports, as well as leveraging advanced features for secure report access and distribution.

Note: In addition to English, the exam is available in French, German, Italian, Japanese, Korean, Portuguese, Simplified Chinese, and Spanish.

Skills Tested

Participants will be tested on their knowledge of the following:

- Key features and benefits of the Online Viewing facility of the Control-D Output Management System
- Use different Control-D Online Viewing facility screens
- Use different options to view Reports online
- Editing Report pages using the Control-D Online Viewing facilities
- Use Indexes to view and retrieve pages or sections of a Report
- Add notes or messages to a Report using the Control-D Online Viewing facilities
- Print Report pages using the Control-D Online Viewing facilities
- Key features and advantages of Control-D/WebAccess Server
- Viewing Reports using Control-D/WebAccess Server
- Add notes or messages to a Report using Control-D/WebAccess Server
- Printing Reports using Control-D/WebAccess Server

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and improve their knowledge and skill level to help build proficiency with the solution:

- Control-M for Mainframe 22: Overview (WBT)
- Control-M for Mainframe 22: Fundamentals Output Management Using (ILT)

Getting Started

Take the recommended courses for the exam.

Step 1. Register and pay for the exam.

Step 2. Study and prepare for the exam.

Step 3. Follow the instructions in your confirmation/registration email received after step 1.

Step 4. Take and pass the exam.

Step 5. Receive the completion badge.

If you have failed the exam, start at step 2. After 2 failed attempts, you need to purchase the exam again.
