Course Overview

Control-D Output Management is an application that automatically schedules and controls Report processing and distribution. It facilitates Online Viewing of User Reports. It helps end users and Operations Personnel to print Reports to file or to the Control-D/Delivery Server.

This course combines classroom instruction with laboratory exercises to guide students through the basic concepts of the Control-D Output Management System. Students learn how to access Reports using the Online Viewing facility and Control-D/WebAccess Server application. They get hands-on experience in viewing and editing Reports. They will be able to retrieve Reports. They also learn about deferred and immediate printing of Reports.
