 - Expert Coaching (*maximum of 6 hours annually; minimum scheduled appointment duration is 30 minutes*)

Subscription Overview

Control-M for Mainframe simplifies the orchestration of mainframe application workflows and removes any manual effort to manage associated quality assurance and recovery activities, delivering better efficiency to keep your mainframe future ready.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of Control-M for Mainframe and details the use of this solution to identify and remediate system vulnerabilities.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.
