## PURPOSE OF EXAM

Companies implementing BMC Client Management realize full value only when their solution is effectively implemented. To ensure implementations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Professional for BMC Client Management 12.x** practical exam will validate the technical competencies and implementation methods needed to successfully implement out-of-the-box (OOTB) baseline functionality for BMC Client Management 12.x.

## Skills Tested

Participants will be tested on their ability to perform the following skills:

- › Performing a baseline installation of BMC Client Management 12.x components on Windows systems
- › Configuring the Core environment
- › Configuring Device Groups
- › Configuring Asset Discovery
- › Configuring Rollouts
- › Configuring Financial Asset Management
- › Configuring Patch Management
- › Configuring Operational Rules
- › Configuring Application Management
- › Configuring Alerts and Events

## Getting Started

**Step 1.** Register and pay for both the *BMC Client Management 12.x: Inventory Manager* and *BMC Client Management 12.x Patch Manager* courses.

**Step 2.** Register for and pass both the end-of-course exam, *BMC Accredited Administrator: BMC Client Management 12.x Core and Inventory Manager Exam* and the *BMC Accredited Administrator: BMC Client Management 12.x Patch Manager Exam*. You will receive access to the online assessment after attending the two required courses.

## Certification Brief
