- » SPPT-BWFU-2008

APPLICABLE VERSIONS

- » BMC Helix Business Workflows 20.08 Patch 1

DELIVERY METHOD

- » Web-based Training (WBT)

COURSE DURATION

- » 3 Hours

PREREQUISITES

- » None

Course Overview

This course introduces the learners to the key features and functionality of the BMC Helix Business Workflows application. This course describes cloud-native case management applications for all lines of business. It also provides services to employees in a scalable, managed, and automated way. It is a platform where automated workflows are created without writing the actual code. It aims for fast and efficient management of cases by providing modern and simple ways to create, resolve, and monitor cases.

Target Audience

- » BMC Helix Business Workflow Users

Learner Objectives

- » Describe BMC Helix Business Workflow overview and features
- » Explain different Business Workflow product roles
