[Learning Path >](#)

Certification Code: SPPT-CERT-DWS2330-CA

| Modality | Duration | Applicable Versions | Target Audience |
|------------------------|----------|----------------------------------|--|
| Online – Non-Proctored | 2 Hours | BMC Helix Digital Workplace 23.3 | <ul style="list-style-type: none">System AdministratorsDevelopers |

Purpose of Exam

BMC Helix Digital Workplace Advanced along with Studio can build microsites and multichannel persona-driven unique service management journeys for each of your enterprise lines of business from a single, integrated platform.

Organizations can leverage the Studio capabilities to design pages where employees can order hardware, software, and services in a single-click manner from an intuitive, consumer-like storefront - all while adhering to enterprise-set security and workflow policies. To ensure administrators will develop skills in importing and exporting pages, designing custom workplace pages, customizing color themes, configuring page components, search, links, and buttons, setting navigation and page entitlements, and embed custom pages and data through BMC Helix Innovation Studio to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate for Helix Digital Workplace 23.x Fundamentals Designing Studio Online Exam** will validate the technical competencies needed to successfully design, configure and administer out-of-the-box (OOTB) custom Studio pages in BMC Helix Digital Workplace.

Skills Tested

Participants will be tested on their knowledge of the following:

- BMC Helix Digital Workplace Studio overview
- Describe the Studio features and capabilities
- Explore the Studio user interface
- Leverage Sample pages and assets
- Import and export pages in Studio
- Understand the page lifecycle, types of pages and page actions
- Create and design custom pages for different lines of business
- Configure different components and their customizations
- Set container layouts with rows and columns
- Manage page visibility and create multilevel menus with Navigation Manager
- Assign page entitlements
- Embed external application pages from BMC Helix Innovation Studio
- Embed custom record definition data from BMC Helix Innovation Studio

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Prerequisites

- NA
