HELIX ITSM

BMC Certified Associate: Helix ITSM 22.x for Administrators Online Exam

bmc helix

Certification Code: SPPT-CERT-ITSM2210-CA

Modality	Duration	Applicable Versions	Target Audience
Online – Non-Proctored	2 Hours	BMC Helix ITSM 22.1.06	• Administrators

Purpose of Exam

BMC Helix ITSM streamlines and automates the processes around IT service desk, asset management, and change management operations. It also enables you to link your business services to your IT infrastructure to help you manage the impact of technology changes on business and business changes on technology — in real time and into the future.

The **BMC Certified Associate: Helix ITSM 22.x for Administrators Online Exam** will validate the technical competencies needed to successfully administer, configure and operate out-of-the-box (OOTB) baseline functionality for ITSM.

Skills Tested

Participants will be tested on their knowledge of the following:

- BMC Helix Innovation Suite Architecture
- ITSM architecture and components
- Configuration of foundation data, including companies, organizations, locations and people
- Configuration and definition of categorization, assignments, notifications, templates and prioritization
- Configuration of Incident Management, Problem Management and Asset Management
- Configuration of Change and Release Management, Asset Management, Incident
- Task Management System and Task Phase Management
- Application templates and task templates
- Email engine rules
- ITSM archiving process
- Service Level Management, including components and roles
- Notifications workflow and management

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Prerequisites

- None

Recommended BMC Software Courses to Prepare for the Certification
