PURPOSE OF EXAM

Companies deploying and using BMC Track It! realize full value when their solution is effectively deployed and managed. To ensure deployments and operations are performed to best practice standards, BMC Software maintains a technical certification program.

The **BMC Certified Associate: Track-It! 20.x for Administrators Online Exam** will validate the technical competencies required to successfully deploy, configure, and manage the Track-It! products applying help desk best practices.

Skills Tested

Participants will be tested on their knowledge of the following:

- › Install and configure Track-It!
- › Examine lookup tables, work orders, and other tables
- › Configure administration, help desk, solutions, and purchasing
- › Examine the Directory Importer
- › Examine workflow automation
- › Examine Change Management
- › Examine Discovery and Audit configuration and execution
- › Examine Software License Management
- › Configure the User Interface
- › Configure Email Notification

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and also improve their knowledge and skill level to help build proficiency with the solution:

- › *Track-It! 20x: Fundamentals Administering*
