BMC DISCOVERY

BMC Helix Discovery 23.x: Fundamentals Modeling Services Using Blueprints

bmc

Learning Path >

Course Code: SPPT-DISB-2330

Modality	Duration	Applicable Versions	Target Audience
Web-based Training (WBT)	1 Hours 20mins	BMC Discovery 23.x	• Administrators • Consultants

Course Overview

BMC Discovery is a data center discovery solution that automatically discovers data center inventory, configuration, and relationship data, and maps applications to the IT infrastructure. BMC Discovery establishes the foundation for improving IT processes and productivity by providing timely and actionable insight to make informed decisions in IT service management, asset management, and infrastructure/operations management.

This course will help participants develop a thorough understanding of service models and blueprints. Delving into these concepts deeply, they will grasp the process of creating service models using blueprints.

Furthermore, guided by recorded demonstrations, participants will learn to create and manage blueprints. Additionally, they will also learn to use pre-existing blueprints to construct service models efficiently.

Prerequisites

- NA

Recommended Trainings

- BMC Discovery 22.x: Fundamentals Application Modelling - Part 1 (ILT)
- BMC Discovery 22.x: Fundamentals Application Modelling - Part 2 (ILT)
- BMC Discovery 22.x: Fundamentals Application Modelling - Part 3 (ILT)

Learning Objectives

- Define service
- Outline the concept of service models
- Identify key components of service models
- Recognize ways to build service models
- Understand the concept of blueprints
- List the benefits of blueprints
- Create blueprints
- Manage blueprints
- Create a service model using a blueprint

Course Modules

Module 1: Overview of Service Models and Blueprints
- Define service
- Outline the concept of service models
- Identify key components of service models
- Recognize ways to build service models
- Understand the concept of blueprints
- List the benefits of blueprints

Module 2: Creating Blueprints
- Understand the process of creating a simple blueprint
- Create a blueprint from the existing blueprint
- Create a complex blueprint

Module 3: Managing Blueprints
- Access the manage blueprint definitions options
- Import a blueprint
- Edit a blueprint
- Enable or disable a blueprint
- Delete a blueprint

Module 4: Creating Service Models Using Blueprints
- Create a blueprint for the service model
- Create a service model using a blueprint
