Course Overview

BMC Helix Digital Workplace offers two applications, Digital Workplace Client and Digital Workplace Catalog. BMC Digital Workplace Catalog is an enterprise app store solution designed to be the center of your digital workplace. BMC Digital Workplace Catalog integrates with external fulfillment systems through service connectors, custom interfaces to enable communication between the catalog application platform and the different fulfillment systems.

This instructor-led course provides students with the information and hands-on lab exercises they need to perform additional BMC Digital Workplace Catalog configuration, connectors, and service creation.

IMPORTANT: Included in this course is the examination BMC Certified Associate: Helix Digital Workplace Advanced Catalog 20.x Online Exam. Taking the exam and pursuing certification is optional. You will have one attempt to pass the exam. No retakes will be offered. Those who pass will receive the title of BMC Certified Associate: Helix Digital Workplace Advanced Catalog 20.x Online Exam.

Target Audience

- Digital Workplace Catalog Administrator

Learner Objectives

- Learn the use of connectors to integrate with connected systems such as Active Directory and REST
- Review how to create asset actions and asset groups
