### DELIVERY METHOD

- » Web-based Training (WBT)
- » Self-Paced Training (SPT)
- » Videos
- » Certifications
- » Skills Assessments

### VIRTUAL LAB ACCESS

This subscription contains Self-Paced Training (SPT) courses which have an optional eBook and Virtual Lab component.

With an Enterprise Education Subscription, an organization has access to a limited number of hands-on lab days annually. These lab days are shared between all employees of the organization.

If the organization has exceeded available lab days and an employee requests an Education Lab Voucher (ELV) to receive eBooks and Virtual Labs for an SPT course, the employee will receive an email communicating that the eBook and lab have not been ordered. However, the SPT course includes a recorded demonstration of the same lab exercises and can still be completed.

Additional hands-on lab days may be purchased in the event your organization has exceeded the allotted lab days for an Enterprise Education Subscription. Contact the Training Coordinator for BMC Training in your organization or [education@bmc.com](mailto:education@bmc.com) for assistance

## Subscription Overview

The goal of BMC Discovery is to automate asset discovery and identify systems in the network and obtain relevant information from them as quickly as possible and with the lowest impact, using a variety of different tools and techniques to communicate.

BMC Discovery is a datacenter discovery solution that automatically discovers datacenter inventory, configuration and relationship data, and maps applications to the IT infrastructure. BMC Discovery establishes the foundation for improving IT processes and productivity by providing timely and actionable insight to make informed decisions in IT service management, asset management and infrastructure/operations management.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of BMC Discovery and details the use of this solution to identify and remediate system vulnerabilities.

**IMPORTANT:** Self-Paced Training (SPT) courses contained in this subscription is comprised of a course instructor video that includes a demonstration of recorded lab exercises.

**NOTE:** This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

## Target Audience

- » Administrators & Consultants

## Learner Objectives

- » Describe the working of BMC Discovery
- » Review the layout and utilities in the user interface
- » Access available dashboards and configure dashboards
- » Describe a taxonomy and view standard patterns from the UI
- » Run a basic discovery scan and interpret the results
- » Explain different Discovery access types
- » Configure credentials for scans in BMC Discovery
- » Describe storage discovery in BMC Discovery
- » Describe patterns
- » Explain the concept of first scan, second scan, and optimization in a discovery run
- » Describe clustering and cluster management in BMC Discovery
- » Explain the Start Anywhere Application Modeling (SAAM) functionality
- » Explain software and infrastructure visualization
- » Describe CMDB resynchronization performance improvements

# BMC Discovery: Enterprise Education Subscription

## COURSE ABSTRACT

### SUBSCRIPTION ACTIVITIES

- » Web-based Training (WBT) – online instruction that includes interactive activities, simulations, and assessments to test comprehension
- » Self-paced Training (SPT) – video recordings of course lectures and lab demonstrations
- » Certifications – Certified Associate and Certified Professional certifications for the latest releases
- » Skills Assessments – self assessment of current skills to determine most relevant additional training

### CERTIFICATION PATHS

- » This subscription is part of the BMC Discovery Certification Path

### SKILL ASSESSMENTS

Want to check your skills before registering for a course? Register for the following skill assessment tests before registering for any course. Skill assessments are meant to test your product knowledge and provide an overview of existing and missing skills to aid in selecting the appropriate training.

- » [BMC Discovery 20.x: Administering Skills Assessment](#)
- » [BMC Discovery 20.x: Application Modeling Skills Assessment](#)

**Note:** The skill assessment is not an exam, you shouldn't prepare and not retake the assessment to avoid receiving incorrect course recommendations.

Please contact [education@bmc.com](mailto:education@bmc.com), to arrange skills assessments for a group of employees and BMC to recommend specific training for this group.
