## Subscription Overview

BMC Helix is a portfolio of SaaS offerings delivering cognitive service management (CSM) that is fast, accurate and cost-effective, across multi-cloud, multi-device, and multi-channel environments.

Migrating from an on-premise solution to BMC Helix is comprised of several different recommendations, processes, and best practices. In these series of recordings, you will be introduced to a variety of topics and content that explains and discusses the different aspects of the migration process.

**Note:** This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

**IMPORTANT:** The **BMC Certified Associate: Helix Migration** examination is included in this course. Taking the exam and pursuing certification is optional. You will have one attempt to pass the exam. Retakes according to the [BMC Certification Policy](#) are available for an additional fee. Those who pass will receive the title of **BMC Certified Associate: Helix Migration**.
