Subscription Overview

BMC Helix IT Service Management is a powerful service management platform that improves IT service delivery. The intuitive user experience is built around roles, to help you be more productive with less effort.

BMC Helix IT Operations Management enables IT departments to monitor the performance and availability of the infrastructure and applications that comprise their services, monitor events coming from the infrastructure devices, and monitor transactions from the applications that enable the services they deliver.

This subscription provides a deep dive into the components and features of AR System, BMC Helix ITSM, Smart IT, BMC Helix Digital Workplace, BMC Helix CMDB, BMC Helix Dashboards, and Innovation Studio. This subscription also provides a deep dive into the components and features of BMC Helix Operations Management, BMC Helix AIOps/Service Monitoring, BMC Helix Log Analytics, BMC Helix Continuous Optimization, and BMC Helix Discovery.

Using examples, demonstrations, and scenarios, the content of the online education subscription details the features and capabilities of these solutions and how to leverage them.

Note: This content is part of an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.
