PURPOSE OF SKILLS ASSESSMENT

BMC Atrium CMDB provides a complete, accurate, and up-to-date view of the people, technologies, and services that make up your business and IT environments. A rich, centralized representation of services helps you plan, deliver, operate, govern, and assign priorities to business services.

The **BMC Atrium CMDB 9.x: Administering Skills Assessment** is to be taken by customer and partner to check their skills for key product areas BEFORE registering for any Atrium CMDB trainings. Based on the result analysis, BMC can provide a recommendation which training courses would fill potential skill gaps.

The skills assessment is not an exam and is not meant to test individuals but provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn't prepare and also not retake the assessment to avoid receiving the incorrect recommendations.

Reviewed Skills

The knowledge around the following topics is checked:

- » Using the BMC Atrium and Asset Management consoles
- » Configuration Management
- » Importing, Reconciling and Normalizing of data
- » Using Service Models
- » Managing access
- » Overview of maintenance tasks
- » Performing post-installation configuration

Getting Started

Step 1. Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

Step 2. Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.
