» 2 Hours

COURSE REGISTRATION

Choose from the following options to register for a BMC Education Services course:

» Register online for BMC Software courses at: **www.bmc.com/education**
» Contact your **BMC Education Advisor** for help with registration

PURPOSE OF SKILLS ASSESSMENT

BMC Discovery is a datacenter discovery solution that automatically discovers datacenter inventory, configuration and relationship data, and maps applications to the IT infrastructure.

To ensure that the administration and configuration operations are performed according to best practice standards, BMC provides technical training based on the current skills levels of product administrators and consultants.

The **BMC Discovery 11.x: Administering Skills Assessment** is to be taken by customer and partner to check their skills for key product areas BEFORE registering for any Discovery 11.x trainings. Based on the result analysis, BMC can provide a recommendation which training courses would fill potential skill gaps. The skills assessment is not an exam and is not meant to test individuals but provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn´t prepare and also not retake the assessment to avoid receiving the incorrect recommendations.

Reviewed Skills

The knowledge around the following topics is checked:

» Working of BMC Discovery
» Layout and utilities in the user interface Deployment
» Available dashboards and configure dashboards
» Set up users and configure User Interface security
» Taxonomy and view standard patterns from the UI
» Basic discovery scans and interpretation of the results
» Different Discovery access types
» Credentials for scans in BMC Discovery
» Patterns

Getting Started

Step 1.

Register for the skills assessment. The skills assessment is free of charge for all customers and partners

Step 2.

Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations
