## PURPOSE OF SKILLS ASSESSMENT

BMC TrueSight Server Automation, formerly BMC BladeLogic Server Automation, is the industry-leading solution for automated management, control, and enforcement of server patching and configuration changes in the data center and the cloud.

To ensure that the administration and configuration oprations are performed to best practice standards, BMC provides technical training based on the current skills levels of product administrators and consultants.

The **BMC TrueSight Server Automation 8.x: Skills Assessment** is to be taken by customer and partner to check their skills for key product areas BEFORE registering for any BMC TrueSight Server Automation/BMC BladeLogic Server Automation 8.x trainings. Based on the result analysis, BMC can provide a recommendation which training courses would fill potential skill gaps.

The skills assessment is not an exam and is not meant to test individuals but provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn´t prepare and also not retake the assessment to avoid receiving the incorrect recommendations.
