- › Contact your [BMC Education Advisor](#) for help with registration

## PURPOSE OF SKILLS ASSESSMENT

TrueSight Server Automation is the industry-leading solution for automated management, control, and enforcement of server patching and configuration changes in the data center and the cloud.

To ensure that the administration and configuration operations are performed to best practice standards, BMC provides technical training based on the current skills levels of product administrators and consultants.

The **TrueSight Server Automation 20.x: Advanced Administering Skills Assessment** is to be taken by customer and partner to check their skills for key product areas BEFORE registering for any BMC TrueSight Server Automation 20.x trainings. Based on the result analysis, BMC can provide a recommendation which training courses would fill potential skill gaps.

The skills assessment is not an exam and is not meant to test individuals but provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn't prepare and also not retake the assessment to avoid receiving the incorrect recommendations.

## Reviewed Skills

The knowledge around the following topics is checked:

- » Security
- » Application Release Management
- » Server Automation Scripts
- » Live Reporting
- » TSSR Administering
- » TSSR Using
- » TSSA Administration and Architecture
- » Unified Agent Installer
- » TSSA Agents and Smart Hub

## Getting Started

**Step 1.** Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

**Step 2.** Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.
