## PURPOSE OF SKILLS ASSESSMENT

BMC TrueSight Orchestration (formerly BMC Atrium Orchestrator) is an IT process automation solution that allows IT to create workflows across applications, platforms, and tools to orchestrate critical activities such as event remediation, compliance, security and service desk automation across the organization. To ensure that the administration and configuration operations are performed to best practice standards, BMC provides technical training based on the current skills levels of product administrators and consultants.

The **BMC TrueSight Orchestration 7.x: Skills Assessment** is to be taken by customer and partner to check their skills for key product areas BEFORE registering for any BMC TrueSight Orchestration/BMC Atrium Orchestrator 7.x trainings. Based on the result analysis, BMC can provide a recommendation which training courses would fill potential skill gaps.

The skills assessment is not an exam and is not meant to test individuals but provide students and teams an overview of existing and missing skills to select the appropriate training. Assessment takers shouldn't prepare and also not retake the assessment to avoid receiving the incorrect recommendations.

## Reviewed Skills

The knowledge around the following topics is checked:

- › BMC Atrium Orchestrator Basics, Adapters, IT Process Automation, Operations Actions Modules, Scheduling, Compensation, Metrics and Audit Records, Health and Value Dashboards, Troubleshooting, Web Services, Extendable Style Sheet Language Transformations, Integrations, Installations, Configuration, and Upgrading.

## Getting Started

**Step 1.** Register for the skills assessment. The skills assessment is free of charge for all customers and partners.

**Step 2.** Review the assessment results yourself or ask BMC to provide a report and feedback with training recommendations.
