Course Modules
Module 1: BMC Remedy Smart Reporting Refresher
» BMC Remedy Smart Reporting Console
» Smart Reporting Components
» New features of Smart Reporting
» Advanced Authoring
» Freehand SQL
» Types of reports in Smart Reporting

Module 2: Create a Drill Through Report
» Basic Custom Reports
» Drill Through Functionality
» Steps to create a basic custom report
» Modify an existing KPI report

Module 3: Create a Bucket Report
» Moderate Complexity Custom Reports
» Bucket Analysis Functionality

Module 4: Create a Report Using Freehand SQL
» Custom view creation with custom SQL
» Reports created using Freehand SQL
» Freehand SQL Functionality
» Steps to create a report using the Freehand SQL Functionality

Module 5: Create a Report Using Advanced Authoring
» Reports created using Advanced Authoring
» Advanced Authoring Functionality
» Steps to create a report using the Advanced Authoring Functionality

Module 6: Create a Report with a Union Sub-Query
» Reports created using the Sub Query functionality
» Sub Query Functionality
» Steps to create a report using the sub query functionality
