

COURSE ABSTRACT

CURRICULUM CODE

» TSCO-ESS-SUBS-ADC

DELIVERY METHOD

» Subscription-based:

- Web-based Training (WBT)
- Instructor-led Training (ILT)
- Virtual Instructor-led Training (VILT)
- Assisted Self-paced Training (ASP)
- Certification (CERT)

TrueSight Capacity Optimization: Essential Subscription – Administrators & Consultants

Subscription Overview

TrueSight Capacity Optimization is a digital enterprise management solution that aligns IT resources with service demands and business priorities, resulting in on-time service delivery and optimized costs

Using examples, demonstrations, scenarios and laboratory exercises the content of the online education subscription helps you develop skills in TrueSight Capacity Optimization administration and configuration and details the use of this solution to help you use the product effectively.

Note: This is an annual subscription and is regularly updated and changed, without notice, based on course updates within the same product version. During the duration of the subscription, users will have access to the subscription content without incurring additional fees.

Target Audience

- » Administrators
- » Consultants

Learner Objectives

- » Get familiar with the TrueSight Capacity Optimization
- » Understand concepts and architecture of TrueSight Capacity Optimization and its components
- » Learn to administer TrueSight Capacity Optimization
- » Understand features and functionalities of TrueSight Capacity Optimization
- » Learn to use TrueSight Capacity Optimization effectively to increase efficiency of your business
- » Get certified to implement, operate and support TrueSight Capacity Optimization

COURSE ABSTRACT

TrueSight Capacity Optimization: Essential Subscription – Administrators & Consultants

SUBSCRIPTION ACTIVITIES

- » Demonstrations, Videos, Labs

ACCREDITATION AND CERTIFICATION PATHS

- » This subscription includes the full BMC TrueSight Capacity Optimization Certification Path.

REFERENCE LINKS

Explore the following links to learn more about TrueSight Capacity Optimization learning path and subscription options.

- » [Learning Path](#)
- » [Graphical Learning Path 10.x](#)
- » [Graphical Learning Path 11.x](#)
- » [Subscription Home Page](#)

DISCOUNT AND OTHER OPTIONS

- » Have multiple students? Contact us to discuss volume discounts for multiple individual subscriptions.
- » Need customized and onsite deliveries? Contact us to discuss hosting a private class for your organization.
- » **Contact us for additional information** 

Offerings

WBT Course 1: TrueSight Capacity Optimization 11.0: Using New Features (WBT)

- » Learn the enhancements provided by TrueSight Capacity Optimization 11.0
- » Understand architectural and component level updates
- » Learn to navigate through the TrueSight console
- » Get an overview of AWS and Kubernetes views
- » Get a walkthrough of web investigation tool
- » Understand migration of custom views and creating custom views from the TrueSight console
- » Learn upgrading and migrating processes
- » Know more about TrueSight Capacity Optimization learning material

WBT Course 2: TrueSight Capacity Optimization 10.7: Using New Features (WBT)

- » Study the Capacity Views Transformation and create custom views on the TrueSight console.
- » Utilize the advanced data integration and administration capabilities to collect and process data from different components.
- » Extract the support for big data using Moviri integrators.
- » Use the enhanced reservation APIs to create reservations and make placements.

WBT Course 3: TrueSight Capacity Optimization 10.5: What's New (WBT)

- » Describe the integration with TrueSight Presentation Server
- » Explain the enhanced capacity pools view

- » Describe the enhancements in reservation-related capabilities
- » Explain the functionality of TSOM and MS Azure connector in a cloud environment
- » Describe the enhancements in reporting capabilities
- » Describe the bookmark facility in TrueSight Capacity Optimization console
- » Introduce the enhanced Hyper-V view
- » Describe the user management enhancements
- » Describe the enhancements on the Global Configuration tab

ILT Course 1: BMC TrueSight Capacity Optimization 11.x: Fundamentals Administering

- » Learn how to gather the data

COURSE ABSTRACT

- » Perform system and data warehouse related tasks
- » Perform user account management
- » Use the advanced reporting feature of TrueSight Capacity Optimization to create high-end customized reports
- » Generate out-of-the-box views for end-user consumption
- » Learn cloud cost control view administration

ILT Course 2: BMC TrueSight Capacity Optimization 11.x: Fundamentals Using

- » Perform TrueSight Capacity Optimization 11.x workspace management
- » Apply analysis and modeling to TrueSight Capacity Optimization entities
- » Create a new study using Virtual Planner capability
- » Generate basic reports for end-user consumption
- » Familiarize with OOTB views, virtualization views, and Cloud Cost Control view

ILT Course 3: TrueSight Capacity Optimization 10.x: Fundamentals for Administrators

- » Understand the product installation process at a high level
- » Describe various aspects of the TrueSight Capacity Optimization administration
- » Perform user account management

- » Become familiar with the Extract, Transform, and Load (ETL) module functionalities
- » Use the advanced reporting feature of TrueSight Capacity Optimization to create high-end customized reports
- » Generate out-of-the-box views for end-user consumption

ILT Course 4: TrueSight Capacity Optimization 10.x: Fundamentals for Users

- » Perform TrueSight Capacity Optimization 10.7 workspace management
- » Apply analysis and modeling to TrueSight Capacity Optimization entities
- » Create documents using TrueSight Capacity Optimization
- » Generate basic reports for end-user consumption

ASP Course 1: TrueSight Capacity Optimization 10.x: Fundamentals for Administrators (ASP)

- » Understand the product installation process at a high level
- » Describe various aspects of the TrueSight Capacity Optimization administration
- » Perform user account management
- » Become familiar with the Extract, Transform, and Load (ETL) module functionalities

- » Use the advanced reporting feature of TrueSight Capacity Optimization to create high-end customized reports
- » Generate out-of-the-box views for end-user consumption

ASP Course 2: TrueSight Capacity Optimization 10.x: Fundamentals for Users (ASP)

- » Perform TrueSight Capacity Optimization 10.7 workspace management
- » Apply analysis and modeling to TrueSight Capacity Optimization entities
- » Create documents using TrueSight Capacity Optimization
- » Generate basic reports for end-user consumption

Certifications:

BMC Certified Associate: TrueSight Capacity Optimization 11.x Online Exam

The BMC Certified Associate: TrueSight Capacity Optimization 11.x Online Exam will validate the competencies needed to successfully use TrueSight Capacity Optimization.

BMC Certified Professional: TrueSight Capacity Optimization 11.x Online Proctored Exam

The TrueSight Capacity Optimization 11.x Online Proctored Exam will validate the competencies needed to successfully use TrueSight Capacity Optimization.
