DELIVERY METHOD 🌐

» Subscription-based
- Web-based Training (WBT)
- Videos
- Skills Assessment
- Enablement Guidance

Subscription Overview

TrueSight Capacity Optimization is a digital enterprise management solution that aligns IT resources with service demands and business priorities, resulting in on-time service delivery and optimized costs.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of TrueSight Capacity Optimization and details the use of this solution to help you use the product effectively.

Note: This is an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

After users have completed the Skills Assessment, an Enablement Guidance session can be scheduled by contacting **subscription@bmc.com**.

Target Audience

» Administrators
» Capacity Planners

Learner Objectives

» Get an overview of TrueSight Suite
» Learn basics of TrueSight Console
» Get an overview of TrueSight Capacity Optimization
» Understand architecture, components, features and functionalities of TrueSight Capacity Optimization
» Learn concept of reserving resources for the future projects
» Learn to investigate component from the TrueSight Console
» Learn to create a correlation analysis for performance v/s KPI data in TrueSight Capacity Optimization
» Understand the value offered by system details page
» Learn to set up VMware service ETL as a part of BMC TrueSight Capacity Optimization
» Assess your readiness to administer TrueSight Capacity Optimization 20.x Application

Note: If you need more than an overview about TrueSight Capacity Optimization, e.g. you want to learn how to operate and administer it, BMC recommends the "BMC TrueSight Capacity Optimization: Essential Subscription – Capacity Planners" and "BMC TrueSight Capacity Optimization: Essential Subscription – Administrators & Consultants" which include on demand overviews, instructor led and virtual training, assisted self-paced training, hands on lab with practical exercises, expert coaching and even accreditation and certification.

Offerings

WBT Course 1: BMC TrueSight 11.x Overview (WBT)
» Today's Business Needs
» Introduction to TrueSight Suite
» TrueSight Operations Management 11.x: Features
» TrueSight Operations Management 11.x: Architecture
» Components of TrueSight Suite
» TrueSight Capacity Optimization 11.x: Features
» Introduction to TrueSight Console
» Accessing TrueSight Operations Management Training
» References

Video 1: Creating Business Service Views
» Working of ETLs
» Working of Business Service views
» ETL module types
» Using ETL templates
» Reducing duplicates with lookups

Video 2: Capacity Planning with TrueSight Capacity Optimization
» Intelligent capacity management
» Concept of reserving resources for the future projects
» Creation of a reservation and the corresponding placement of the resources

Video 3: Investigate – The Basics
» Investigate component from the TrueSight Console
» Analyze all metrics collected by a Capacity Agent
» Different access rights that the user must have to leverage the Investigate functionality

Video 4: Performance vs Load Analysis Correlation
» Procedure for creating a correlation analysis for performance v/s KPI data in TrueSight Capacity Optimization
» Performance versus load analysis (PLA) and its benefits

» Linear correlation between two variables

Video 5: Custom Views: System Details
» Creating a system details page inside a custom view and linking it to other pages on the custom view in TrueSight console
» Value offered by system details page

» CPU and Memory Utilization metrics

Video 6: Administrator's daily checklist
» Set of basic administrator's checks that can be done daily to check the heath of CO instance
» Configuring the email settings to successfully receive the alerts
» Configure the ETLs and check their status daily

Video 7: Support for Kubertentes Intro
» New out-of-the box integration of Kubertentes provided with version 11.0 of TrueSight Capacity Optimization
