TrueSight Operations Management: Ultimate Subscription

Subscription Overview

BMC TrueSight Operations Management is a performance and availability management solution. It provides application-aware infrastructure monitoring IT Operations, bringing together infrastructure and application monitoring in one integrated solution, thus providing infrastructure monitoring with application context in one framework with a common user interface.

Using examples, demonstrations, scenarios and laboratory exercises the content of the online education subscription help you develop skills in BMC TrueSight Operations Management installation, administration, and configuration and details the use of this solution to identify and remediate system vulnerabilities.

Note: This is an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

At BMC's discretion or based on customer demand, BMC reserves the right to change expert 1:1 coaching appointments to group coaching calls.
