COURSE ABSTRACT

BMC TrueSight Server Automation: Explore Subscription

CURRICULUM CODE

» TSSA-EXP-SUBS

DELIVERY METHOD 🌐

» Subscription-based
  - Web-based Training (WBT)
  - Videos
  - Skills Assessment
  - Enablement Guidance

Subscription Overview

BMC TrueSight Server Automation (**formerly BladeLogic Server Automation**) is the industry-leading solution for automated management, control, and enforcement of server patching and configuration changes in the data center and the cloud.

Using examples, demonstrations, and scenarios, the content of the online education subscription provides an overview of BMC TrueSight Server Automation and details the use of this solution to identify and remediate system vulnerabilities.

Note: This is an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

After Users have completed the Skills Assessment, an Enablement Guidance session can be scheduled by contacting **subscription@bmc.com**.

Target Audience

» Administrators

Learner Objectives

» Gain an overview of TrueSight Server Automation
» Understand architecture, components, features and functionalities of TrueSight Server Automation
» Navigate through the health dashboard
» Explore the Live Reporting dashboard
» Explain the advantages of using TrueSight Server Automation

Note: If you need more than an overview about TrueSight Server Automation, e.g. you want to learn how to operate and administer it, BMC recommends the "TrueSight Server Automation: Ultimate Subscription" which includes on demand overviews, instructor led and virtual training, assisted self-paced training, hands on lab with practical exercises, expert coaching and even accreditation and certification.
