BMC TrueSight Server Automation: Ultimate Subscription

Subscription Overview

BMC TrueSight Server Automation (TSSA) (**formerly BladeLogic Server Automation****) is the industry-leading solution for automated management, control, and enforcement of server patching and configuration changes in the data center and the cloud.

****Note:** Starting with version 8.9.03, BMC Server Automation is renamed to TrueSight Server Automation. This content is appropriate for all 8.0-8.9 versions and product names.

Using examples, demonstrations, scenarios and laboratory exercises the content of the online education subscription help you develop skills in TrueSight Server Automation installation, administration, and configuration and details the use of TrueSight Server Automation solution.

Note: This is an annual subscription and is regularly updated and changed, without notice, based on product updates, improvements, and additions. During the duration of the subscription, users will have access to the latest content without incurring additional fees or being subject to additional registrations.

At BMC's discretion or based on customer demand, BMC reserves the right to change expert 1:1 coaching appointments to group coaching calls.
