COURSE ABSTRACT

TrueSight Orchestration: Essential Subscription - Developers

CURRICULUM CODE

TSSO-ESS-SUBS-DEV-2002

DELIVERY METHOD 🌐

Subscription-based:
- Web-based Training (WBT)
- Virtual Instructor-led Training (VILT)
- Assisted Self-paced Training (ASP)
- Certification (CERT)

Subscription Overview

TrueSight Orchestration is an IT process automation solution that allows IT to create workflows across applications, platforms, and tools to orchestrate critical activities such as event remediation, compliance, security and service desk automation across the organization.

Using examples, demonstrations, scenarios and laboratory exercises the content of the online education subscription help you develop skills to build and test the TrueSight Orchestrator infrastructure. Learners are presented with real-world tasks and the information and tools necessary to complete each task, which will develop basic TrueSight Orchestrator skills.

Note: This is an annual subscription and is regularly updated and changed, without notice, based on course updates within the same product version. During the duration of the subscription, users will have access to the subscription content without incurring additional fees.

Target Audience

Developers

Learner Objectives

Improve quality of IT service and reduce the risk of manual errors through the automation of common, repeatable tasks

Identify and configure the primary components of the TrueSight Orchestrator infrastructure

Identify the elements of the Development Studio

Create processes that invoke various adapters
