BMC AMI Ops Automation Learning Track 1 – z/OS: Operators

CRT Certification	**ILT** Instructor-led Classroom/Online
WBT Web-based Training	**ASP** Assisted Self Paced

About the Product:
BMC AMI Ops Automation (BMC AMI OpsA) product is part of the BMC AMI Ops Automation for Data Centers solution. This product provides tools and applications to improve an operator's ability to provide high system availability and helps the operator through error minimization, improved productivity, and problem determination and prevention.

**About the Training Target Group – Operator Responsibilities:**
- Monitor the z/OS systems for error conditions
- Resolve errors and warning conditions for high system availability

Recommended for: Operators

Training applicable to product versions:
- BMC AMI Ops Automation 6.1, 6.2, 6.3, 8.1, 8.2, and 8.3
- BMC AMI Ops Infrastructure 6.2, 6.3, and 7.0

Fundamentals

BMC AMI Ops Infrastructure 7.x: **Fundamentals Using the User Interface (WBT)** WBT — 2 hrs	→	BMC AMI Ops Infrastructure 7.x: **Fundamentals Using** ILT — 3 days	→	BMC AMI Ops Automation 8.x: **Fundamentals Operating** ILT — 2 days	→	BMC AMI Ops Automation 8.x: **Fundamentals Managing** ILT — 1 day

BMC AMI Ops Automation 8.x: **Fundamentals Using TOM** ILT — 1 day	→	BMC AMI Ops Automation 8.x: **Fundamentals Managing TOM** ILT — 2 days	→	BMC Certified Associate: **AMI Ops Automation 8.x for Operators and System Programmers Online Exam** CRT — 2 hrs

BMC AMI Ops Automation Learning Track 2 - Subsystems: Operators

CRT	Certification	**ILT**	Instructor-led Classroom/Online
WBT	Web-based Training	**ASP**	Assisted Self Paced

About the Product:

BMC AMI Ops Automation (BMC AMI OpsA) product is part of the BMC AMI Ops Automation for Data Centers solution. This product provides tools and applications to improve an operator's ability to provide high system availability and helps the operator through error minimization, improved productivity, and problem determination and prevention.

**About the Training Target Group – Operator Responsibilities:**

- Monitor subsystems for error conditions
- Resolve errors and warning conditions for high system availability

Recommended for: Operators

Training applicable to product versions:
BMC AMI Ops Automation 6.1, 6.2, 6.3, 8.1, 8.2, and 8.3

BMC AMI Ops Automation Learning Track 1 – z/OS: System Programmers

CRT Certification		**ILT** Instructor-led Classroom/Online	
WBT Web-based Training		**ASP** Assisted Self Paced	

About the Product:
BMC AMI Ops Automation (BMC AMI OpsA) product is part of the BMC AMI Ops Automation for Data Centers solution. This product provides tools and applications to improve an operator's ability to provide high system availability and helps the operator through error minimization, improved productivity, and problem determination and prevention.

**About the Training Target Group – System Programmer Responsibilities:**
- Identify repeating alarming conditions on the z/OS system
- Create automation to handle the alarming conditions

Recommended for: System Programmers

Training applicable to product versions:
- BMC AMI Ops Automation 6.1, 6.2, 6.3, 8.1, 8.2, and 8.3
- BMC AMI Ops Infrastructure 6.2, 6.3, and 7.0

Fundamentals

BMC AMI Ops Infrastructure 7.x: Fundamentals Using the User Interface (WBT)
WBT — 2 hrs

BMC AMI Ops Infrastructure 7.x: Fundamentals Using
ILT — 3 days

BMC AMI Ops Automation 8.x: Fundamentals Operating
ILT — 2 days

BMC AMI Ops Automation 8.x: Fundamentals Managing
ILT — 1 day

BMC AMI Ops Automation 8.x: Fundamentals Using TOM
ILT — 1 day

BMC AMI Ops Automation 8.x: Fundamentals Managing TOM
ILT — 2 days

BMC Certified Associate: AMI Ops Automation 8.x for Operators and System Programmers Online Exam
CRT — 2 hrs

BMC AMI Ops Automation Learning Track 2 - Subsystems: System Programmers

About the Product:

BMC AMI Ops Automation (BMC AMI OpsA) product is part of the BMC AMI Ops Automation for Data Centers solution. This product provides tools and applications to improve an operator's ability to provide high system availability and helps the operator through error minimization, improved productivity, and problem determination and prevention.
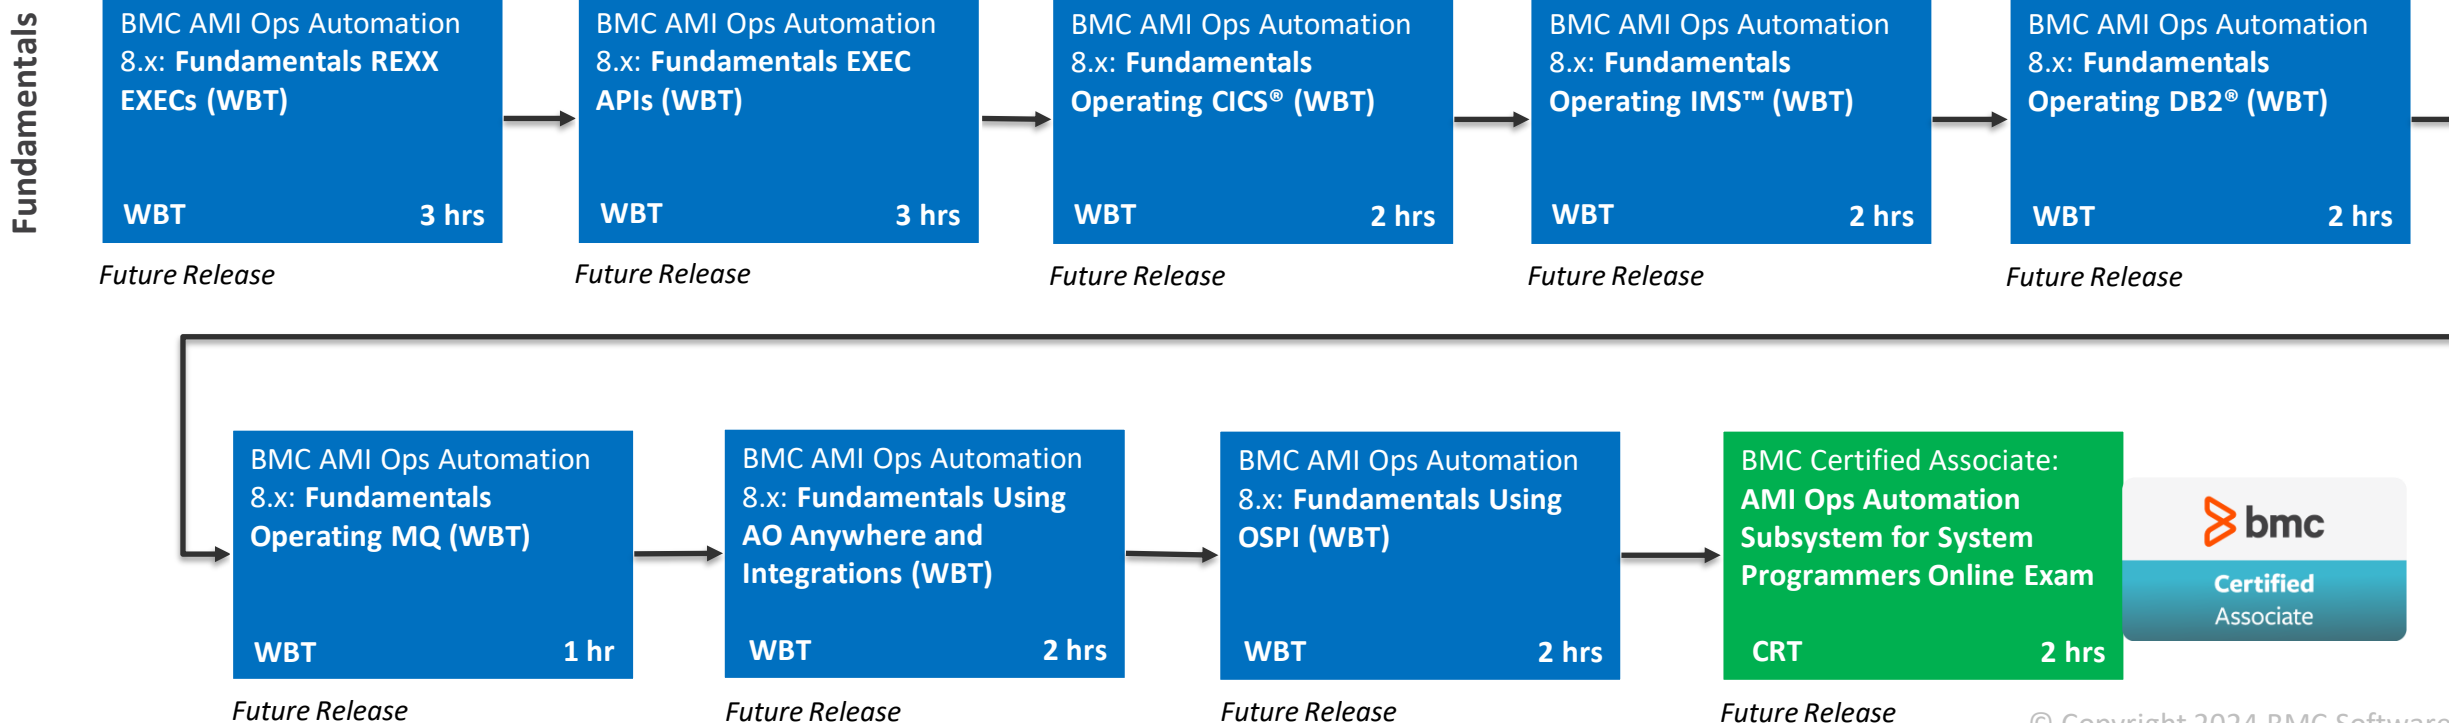

About the Training Target Group – System Programmer Responsibilities:

- Identify repeating alarming conditions on the subsystems
- Create automation to handle the alarming conditions

Recommended for: System Programmers

Training applicable to product versions:
BMC AMI Ops Automation 6.1, 6.2, 6.3, 8.1, 8.2, and 8.3

BMC AMI Ops Automation Learning Track: System Administrators

About the Product:

BMC AMI Ops Automation (BMC AMI OpsA) product is part of the BMC AMI Ops Automation for Data Centers solution. This product provides tools and applications to improve an operator's ability to provide high system availability and helps the operator through error minimization, improved productivity, and problem determination and prevention.

About the Training Target Group – System Administrator
Responsibilities:

- Configure the product
- Integrate with other products in the mainframe environment

Recommended for: System Administrators

Training applicable to product versions:

- BMC AMI Ops Automation 6.1, 6.2, 6.3, 8.1, 8.2, and 8.3
- BMC AMI Ops Infrastructure 6.2, 6.3, and 7.0
